

This leaflet has been designed to help you maximize the use of this product, which is unique in Canada.

Read it carefully for greater economy.

**BIO-EXTRAK - CONCENTRATED - CLEAN ALL!**

**Manufactured in QUEBEC / CANADA**

**BIODEGRADABLE OECD 301<sup>D</sup>**

**NON-CORROSIVE**

**ENVIRONMENTALLY FRIENDLY CCD166**

**NONFLAMMABLE**

**ECOLOPLUS**

**SIMPLE AND EASY INSTRUCTIONS**

**BIO-EXTRAK - CONCENTRATED** is a dirt disintegrator and degreaser that can be used anywhere, anytime. **It does not contain animal fat, chlorine, ammonia, caustic, phosphate, enzymes or acid.**

**DILUTION #1:** Pure. Use on dry or damp surfaces.

**DILUTION #2:** Dilute **one** part of product in **four** parts of water.

**DILUTION #3:** Add 4 drops - **MAXIMUM** – of product to a litre of water. This special blend is used to clean indoor windows and mirrors. You can also use it for stainless steel or ceramic with a glass finish or with a sealant finish such as pore-filler.

**DILUTION #4:** Dilute **one** part of the product in **two** parts of water.

#### INDOORS – HOUSE – OFFICE

**Jewelry: gold, silver, brass and copper:** Use dilution **#4** in a small container. Soak jewelry, then brush with a small brush, rinse and wipe. **Ultrasound machine:** Dilute two parts of dilution **#1** in **eight** parts of water.

**Fabrics, clothing, carpets, velvet couches, etc.:** To remove stains, spray dilution **#2** on a white moist cloth, scrub, rinse and then dry with another white dry cloth. If it is very dirty, use dilution **#4**.

**Stubborn stains:** Try dilution **#4** or if it does not work well, use dilution **#1**. Scrub and machine clean.

**Greasy or oily stains:** Spray dilution **#4** on the stains. Scrub. Put the clothes in the hamper or directly into the washing machine.

**Yellowed white fabrics:** Use **1/2** cup of dilution **#1** in the washing machine. Start the washing machine for a few minutes, then let soak 4 to 5 hours. Wash without any soap.

**Laundry:** Use **4 oz.** or **120 ml** of dilution **#1** in the washing machine to replace your regular detergent. No need for fabric softener.

**Front-loading washing machine:** Use **90 ml** of dilution **#1** for a load of very dirty clothes or **60 ml** for a regular load.

**No need for fabric softener.**

**It is always best to test first on fabrics and furniture in an inconspicuous area.**

**Sports bag, golf shoes, sneakers as well as vinyl shoes and purses:** Use dilution **#4**, clean with the enclosed green or white scouring pad. Rinse with a wet cloth and let it dry. BIO-EXTRAK leaves its own protective finish.

**Kitchen cabinets, melamine, laminate, wood or other surfaces:** Spray dilution **#4**, and use a cloth or, in case of tough

stains, the white scouring pad. Rinse and wipe with a dry cloth. **Daily use:** dilution **#2**. **Walls, ceilings, no-wax vinyl floors, ceramic without sealant:** Use **4 oz.** or **120 ml** of dilution **#1** in a pail of water. Use the white scouring pad for tough stains. Rinse and let it dry. **Waxed floors or ceramic with sealant:** Use **2 oz.** or **60 ml.** in a pail of water. (It could remove the wax, sealer or varnish if the solution used is too concentrated).

**Hardwood floors or wood cabinets:** We recommend our TRIAD soap. It was specially formulated to clean and protect wood. Visit [www.si-mart.com](http://www.si-mart.com). You may also use **1 oz.** of dilution **#1** in **10** litres of water.

**Floating floors:** First use: Sweep the surface. Proceed by section. Spray dilution **#4** on the floor. Scrub with the white pad. Bubbles will form and you will need to remove them with a damp cloth. Rinse with clean water. Dry with a dry cloth. If toe prints still appear, repeat the operation.

**Kitchen fan:** Use dilution **#4**, and scrub with the green scouring pad. Rinse.

**Fan filter:** Spray dilution **#4**, let it stand. Brush and rinse, or wash in the dishwasher.

**Dishwasher:** Fill soap cups halfway with dilution **#1**. (Could be inefficient if the water contains a lot of iron; try the cups filled to capacity.)

**To replace the rinse agent:** Add the dilution **#1** in the rinse dispenser of the dishwasher.

**Kitchen ovens:** Generously spray dilution **#4**, let it soak. Spray another coat before scrubbing. Clean with a scouring pad designed for ovens.

**Stoves, refrigerators and appliances:** Spray dilution **#4**, wipe and rinse. If they are made of stainless steel: use dilution **#3**.

**Vertical and horizontal blinds:** Mix **2 oz.** of dilution **#1** in **10** liters of water. Wash and rinse.

**Carpets:** Use **3 oz.** or **90 ml** of dilution **#1** per gallon of water in your carpet cleaning machine. Do not use other soaps. Add an anti-foaming agent if needed.

**Indoor windows and mirrors, glass-ceramic, stainless steel:** Use **4 drops** – **MAXIMUM** - of dilution **#1** by liter of water. Spray and wipe.

**Articles made of leather:** Spray dilution **#2** on a damp cloth, scrub, wash and rinse with another damp cloth. Then dry with a dry cloth.

#### BATHROOM – BATHTUBS - SINKS

**Sinks, toilets, bathtubs and showers (ceramic, marble or fiberglass):** Use dilution **#4** with the white scouring pad then rinse. In case of lime or iron deposits or mould: Spray dilution **#1** then scrub with a green scouring pad and let it soak. Spray another time, scrub and rinse.

**Deposits on grout:** Spray dilution **#1** then scrub with a green scouring pad and rinse.

**Whirlpool bath tub plumbing:** Close the tub air vents; add water to cover about 5 cm above the bath jets. Put in **1/2 cup** of dilution **#1**; operate the whirlpool bath for a few minutes.

**Heat pump filter:** Spray with dilution **#4**; let to soak then rinse.

#### OUTDOORS – HOUSE – OFFICE – GARAGE

**BBQ grill:** Once the grill has cooled, spray generously with dilution **#4** and put away until next use. Before re-using, spray again, scrub with the green scouring pad or steel wool. Rinse thoroughly.

**Swimming pool, vinyl or fiberglass (interior, exterior):**

Spray with dilution **#4**, scrub with the green scouring pad and rinse.

**Patio Furniture:** Spray with dilution **#4**, scrub with the white scouring pad, then rinse. For tough stains, use a steel wool scouring pad (000) without soap. Polish with a Teflon base car wax. **Work in the shade.**

**Cement floor, large surface area:** Sweep the surface. Use dilution **#1** and adjust your foam gun to **1 %** or **10 ml** per litre or **1000 ppm**, scrub with a brush and let it to soak for 5 to 10 min. to allow the product to work in depth. Brush again, rinse and let it dry.

**Oil stains or other on brick or paving stone, concrete or asphalt:** Sweep and wet the surface with water. Spray with dilution **#1**. Brush and let it soak as necessary (brush to verify). Rinse. Can be done once or several times.

**House outdoor walls, vinyl or aluminum clapboard, paint or other:** Wet the surface. Spray with dilution **#1**. Scrub with a brush, wash and rinse. In case of tough stains, use a scouring green pad. **Work in the shade.**

**Outdoor windows and frames:** Spray with dilution **#4**. Scrub with a white cloth or scouring pad, rinse thoroughly and wipe.

**Heat pump filter:** Spray with dilution **#4**, let it soak then rinse.

#### VEHICLES – CARS – MOTORCYCLES – TRUCKS – BOATS

**Automobiles, motorcycles, exterior of trailers, bodywork and paint:** Proceed by section. Wet the surface and spray it with dilution **#4**. Use a brush or a washing glove, scrub the surface and then rinse thoroughly. Once the entire vehicle washed, do a final rinse and dry lightly. **Work in the shade.** No need to polish. BIO-EXTRAK removes old wax and acid rain deposits; it leaves its own protective finish.

**Truck, car, tractor, ATV or motorcycle engines:** Moisten with water. Spray generously with dilution **#1** and leave on 15 to 20 min. Brush if necessary. Then, rinse thoroughly. Can be used with a pressure washer. **DO NOT SPRAY ON WARM MOTOR. Work in the shade.**

**Wheel spindles made of magnesium or other:** Spray with dilution **#4** and let it soak; brush if necessary and rinse.

**Black and whitewall tires:** Apply dilution **#2** and let it soak; scrub with the green scouring pad then rinse.

**Car inside, vinyl or leather:** Spray dilution **#2** on a soft white moist cloth; wipe. Dry with another white clean cloth and let dry. If it is very dirty, use dilution **#4**.

**Stains on seats, carpet and belts:** Lightly spray dilution **#2** on a white moist cloth, scrub. Dry with a clean and dry white cloth. If it is

very dirty, use dilution **#4**.

**Boat exterior:** Docking bumpers (buoys) Apply dilution **#4**, scrub with the green scouring pad and rinse.

**Fiberglass hull and water line:** Wet surface. Spray with dilution **#1**. Scrub with a white or green scouring pad. To clean the motor and foot, use the same method.

**DO NOT SPRAY ON A WARM MOTOR. WORK IN THE SHADE.**

#### COMMERCIAL, INDUSTRIAL AND FARMING USE

Motels, restaurants, hotels, shops, stores, apartment or office buildings, farms and many others.

To clean: desks, floors, cars, trucks, boats, buses, planes, motor homes, motorcycles, machined parts, black and whitewall tires, heavy machinery, etc.

For hardwood floors and varnished wood furniture: we recommend our TRIAD soap created specifically for all varnished woods.

Can be used with a pressure washer.

If streaks occur, your dilution is **too concentrated**; rinse with water.

The use of the white or green scouring pad is important for tough cleaning jobs.

It allows our product to activate itself and to penetrate fibers as well as other surfaces.

It is not necessary to scrub energetically; a gentle pressure is generally enough.

BIO-EXTRAK - CONCENTRATED saves time, space, money and effort. You are done purchasing multiple cleaning products! No more inventory!

Use only one product to clean the interior and exterior of your house, garage or your own business.

For oily or greasy work, let it to soak 5 to 10 min. Spray the product again before scrubbing.

**KEEP OUT OF REACH OF CHILDREN. AVOID CONTACT WITH EYES DO NOT SWALLOW.**
